OUR OFFERINGS

Ways to support **nano-business**

SALIENT FEATURES

Startups

FANPLAY

Fanplay IoT is World's First Sports IoT Platform that transforms the way Fans, Amateurs and Professional players interact in real-time, both during and after the event.

Using their advanced wearable technology and IoT platform, which includes a Textile-based Smart Jersey Wearable, it provides connected PHYGITAL experiences ranging from Fan Engagement to Coaching to Injury prevention for all stakeholders.

The Bengaluru-based start-up is growing at a rapid pace to offer technology solutions in the nascent Indian Sports Sector (a 100B\$ industry potential) and for a global 30B\$ Sportstech market. It has already piloted its solutions in IPL2020 (with CSK) and ISL2020 (with KBFC) and formally launched its products with CSK during IPL2022.

SK Technical Fabrics

They have developed a 3D finishing technique state of the art non-topical application preserving fabric bulk and loft which opens up a separate face and back finish application. This gives the ability to put dual functional finishes on fabric. This reduces the chemical usage by 50% and requires 30% less drying time than traditional padding methods without any compromise on performance of the fabric.

Our signature Odorless Mosquito Repellent finish is superior to current market offerings as it does not use DEET or permethrin but an environment friendly, plant-based formulation. All active ingredients in the formulation are in the exempted product list of US-EPA Section 25B.

IAMKHADI Export Pvt. Ltd.

India's First Smart Textiles & Garments company to combine Conductive Yarn based Textiles with a digital platform to create solutions for Women's Wellness. We will shortly do the "soft" launch of our product "Anti-RAD SmartProtect" that provides protection against non-ionising radiation for pregnant mothers and new-borns. Along with this, we have a Smart Protect App that works to collect environmental radiation to warn the user about any potential source they need to stay away from. The greatest polluting element in the earth's environment is the rise of electromagnetic fields. See the multicuity of electronics and gadgetry in our homes – Cell phones, WIFI's, Smart TV, laptops, electric radiators, invertors, power units etc. – all associated with radiofrequency radiation, which has been declared as a cancer-causing agent by WHO.

Hemp Affair Private Limited

Hemp Affair is a vertically integrated textile manufacturing company that process natural bast fibres like hemp, nettle etc. into cottonized fiber, yarns and fabrics. Hemp Affair delivers sustainable and luxurious hemp fabrics. Hemp is also called the trillion dollar crop and is the first domestically cultivated crop. Earliest hemp fabric dates back to 8000 B.C. from Mesopotamia. All parts of the hemp plants can be used. Hemp fabric is antibacterial, antifungal, UV resistant, antimicrobial, mold and mildew resistant. Hemp is among the strongest natural fibres.

ABEEY YAAR

Designers & Manufacturers of Sustainable Home Products.

They Focus on exquisite unique design handicrafts, decorative, metal curios, wooden Furniture, antiques and much more.

ABEEY YAAR has a proactive approach towards client's requirements and demands. They aim To develop functional sculpturistic products which not only preserves but also propagates the traditional skills of handicraft artisans, raking them more static asset in todays fast consumption

economy. They focus on Aesthetics and utility -- reinterpreting classical Indian forms, distinguished by artisanal craftsmanship and their collaboration. Working with makers of regional craft creates a precious flow of provenance and skill.

MuddleArt

MuddleArt facilitates a circular economy, without affecting the quality of consumer experience or profitability. MuddleArt is a pre-consumer textile waste management company that provides customized solutions for the disposal and management of pre-consumer textile waste. they convert Pre-consumer textile waste into raw materials and fibre. this waste either ends up in landfills, or is procured by the informal sector, whose methods of waste management are inefficient, opaque and exploitative of labour rights.

An impact-oriented solution to help apparel and textile manufacturers to process the pre consumer textile waste they generate. they also provide a reliable supply of pre-sorted, raw materials their customer base.

NIFT FOUNDATION FOR DESIGN INNOVATION

NIFT Foundation for Design Innovation (NFDI) is a Section 8 company set up by the National Institute of Fashion Technology and the Ministry of Textiles Government of India. The focus of this entity is to assist an entrepreneur at various stages of the business. You may be a young student brimming with ideas, or a corporate executive seeing opportunities, or a freelancer or a homemaker wanting to make a difference in the way things exist as of now and what can be done for the future. You may be at the Ideation stage, Validation Stage, or Scaling up; we would work with you. During this process, you would like to leverage the economic opportunities visible to you and monetize them, NFDI would be more than happy to support you in your growth.

IAMKHAADII FOUNDATION

IAMKHAADII FOUNDATION (IAMKHADI) is an export Start-Up recognized by Govt. of India and was incubated at Indian Institute of Foreign Trade, New Delhi on Export Promotion of Goods and Services. It works with Start-ups and MSMEs for Export Enhancement, Capacity Building, Implementation of Promotional Activities (Marketing, Events, Seminars, Design Workshops, Technology Adoption, etc.) for Textiles and other sector. The objective of providing promising Fashion & Textile Startups the needed expertise, opportunities, connections, investments and resources to rapidly scale up and go global under its project initiative, DigitalMSME

WORLD ASSOCIATION FOR SMALL AND MEDIUM ENTERPRISES
